## FEATURES & BENEFITS

### SIP support with no server needed

SIP protocol support makes it easy to link the intercom with IP phones and PBX from other producers, without having to connect to the server.

### Security relay

This simple additional device prevents intrusion by detecting any unauthorized manipulation of the electronic locking system.

### Tamper switch

The 2N IP Intercom can be fitted with a tamper switch that detects unauthorized opening of the device itself.

### Time profiles

This function allows you to define the period of time a phone number is valid.

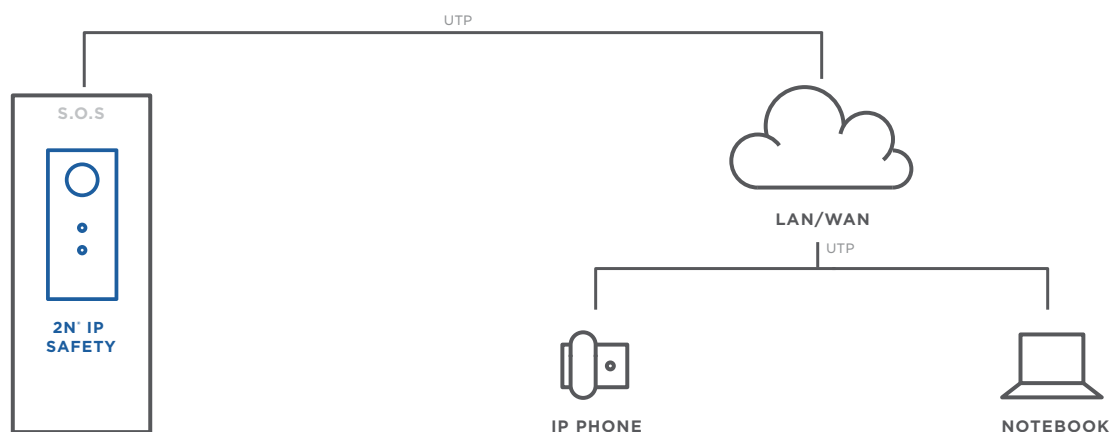

### Backlit buttons

2N® IP Safety features 1 or 2 keys distinctively backlit in blue.

### 2N® Remote Configuration

Save time and money for onsite support thanks to our free service. Access all your devices remotely via secured cloud connection. Fastest response to your customers requests.
