Professional DECT telephony

Combining versatile business communication functionality with the intuitive features of the mobile carrier world, the snom M65 is ideally suited to fast-paced professional telephony.

Wide coverage

With its sleek appearance and comprehensive range of features, the M65 is ideal for customers who expect more of their phone system and require mobile coverage across several floors or throughout large buildings.

Up-to-date User Interface

The M65 has a large backlit 2" color display and a backlit keypad for easy dialing in poor light conditions.

Wideband audio ensures crystal-clear voice quality for your calls, and, in addition to 6 polyphonic ringtones, the handset also features vibration alert for incoming calls. An integrated tricolor LED keeps you instantly informed of missed calls, voicemail messages, and low battery status. The lithium-ion battery has a standby time of up to 250 hours and up to 17 hours of talk time for heavy usage between charging.

Comfort features

When the M65 is used with a snom M700⁽¹⁾ or M300⁽²⁾ base you enjoy many phone system features such as voicemail, automatic call forwarding, call lists, caller identification, or direct search in the corporate directory.
